To the Admissions Committee:

As EnnGroup Assistant Professor in Quantitative Economics at Renmin University of China, I am delighted to recommend Wuzhaoyi (Jeffri) Wu for admission to your graduate program in Financial Engineering or Quantitative Finance. I have observed Wuzhaoyi's academic performance and professional growth closely and consider Wuzhaoyi an exceptional candidate with strong...

Wuzhaoyi has maintained an outstanding academic record, reflected in a GPA of 3.99 (2024-2025 Academic Year) in Financial Engineering. Coursework and independent study demonstrate mastery in probability and statistics, stochastic processes, optimization, econometrics, and computational methods. Wuzhaoyi consistent...

Technically, Wuzhaoyi is a highly capable quantitative developer. Fluent in Python and the scientific computing stack (including NumPy, pandas, and common machine learning libraries), Wuzhaoyi builds clean, modular, and reproducible codebases under version control. In project...

Beyond technical competence, Wuzhaoyi communicates complex ideas with clarity. Wuzhaoyi writes with precision, presents results logically, and is receptive to critique iterating quickly while maintaining methodological integrity. In team settings, Wuzhaoyi collabor...

Given Wuzhaoyi's academic excellence, quantitative rigor, and professional maturity, I recommend Wuzhaoyi (Jeffri) Wu to your program without reservation. I am confident that Wuzhaoyi will contribute meaningfully to your academic community and excel in advanced study and research.

Sincerely:

Lei Ge (葛雷)

EnnGroup Assistant Professor in Quantitative Economics, Renmin University of China

Applicant: 吴昭毅 / Wuzhaoyi (Jeffri) Wu | GPA: 3.99 (2024-2025 Academic Year) | Major: Financial Engineering
